

# APOLLO<sup>®</sup>

POWER YOUR DREAMS

# Apollo Diesel Generators

Apollo generators have been well-accepted throughout the world as durable, easy to use, and meeting multiple demands. Powered by an Apollo air-cooled, reliable, 4-stroke direct injection diesel engine in a compact structure, brings convenience to outdoor family fun. The brushless alternator eliminates time consuming maintenance, while its low oil protection ensures long lasting durability, giving extreme confidence in construction and commercial rental use. Apollo is continuously developing various generator models appropriate for a wide range of applications. Where you find Apollo, you find fun and convenience. We have a dual function DC welder great for that hobbyist welder or for a commercial project on the road. Great for its mobility and structure. All of our diesel engines come with a low oil shutdown to help ensure a product that will last for years.

MODEL	AED6500XE	AED6500S	AED6500W
Rated Frequency (Hz)	60		
Rated Voltage (v)	120/240		
Rated Output (kW)	4.5	4.5	2.2
Max Output Power (kW)	5	5	
Welding Voltage w/o Load	n/a	n/a	55-65
Welding Amp (A)	n/a	n/a	160
Rated Rotation Speed	Clockwise		
DC Output	12V		
Power Factor cos	1		
Excitation Mode	Self Excitation, Brushless		
Noise Level (dB) zero to full load	75-79	70-74	74-79
Structure Type	Open Frame	Silent Type	Open Frame
Fuel Type	Diesel		
Fuel Tank Capacity	3.3		
Running Time	8	8	12
Net Weight (lbs)	229	377	289
Engine Model	CF186FE		
Engine Type	1 cyl; 4 stroke; vertical diesel engine		
Oil Grade	CD or better		
Starting System	Electric and Manual	Electric	Electric and Manual
Rotation Direction	Clockwise
